Description

The Oxford bedroom furniture collection is designed exclusively for care home residents living with dementia. The large swoop design handles on this 5-drawer chest of drawers provide a key opportunity to see and feel what is inside, which can often help to reduce anxiety and access confusion.

These pieces are hand-finished with melamine faces to aid easy-cleaning and hygiene. Manufactured specifically for severe contract use, joints are glued, screwed and doweled for the utmost in strength and build quality. Available in a range of wood effect colours, as well as the option for white contrast door and drawer fronts.
