Description

The Coventry gents robe wardrobe is designed and manufactured primarily for care home use, utilising quality fixings with glued, screwed and dowelled joints. A solid 15mm thick back provides additional stability, and so the wardrobe can be used for support without leaning or bowing. The drawers have metal slides with easy glide roller runners, constructed with 15mm solid drawer bases and back railes, with solid metal handles. The hinges on the cupboards are 170º metal. The inside of the wardrobe is fitted with a strong, durable hanging rail as standard, with shelving and half-and-half options also available.

The Coventry collection is completed with a full range of bedside tables, chests of drawers, dressing table and additional storage.
